This week we talked about laws - do you know of any funny or strange laws? For example, it's apparently illegal to paint your front door purple in Ottawa, to have a pet rat in Alberta, and to have more than two garage sales a year in Toronto. Would any of those bother you? Have you heard of any other strange laws?

...involves sharing our love and awe for God and for everything that makes Him awesome, including His supreme love, worth, character, qualities and perfections.

<Have someone prepare in advance to lead the group in a time of worship. Some ideas: You could lead a song or just listen to one. You can reflect on a verse or a quote/reading about God. Your group could also have a specific time of prayer...>

1- What were were things in this week's message that stood out for you personally?

2- What are you more curious about?

3- On a scale of 1-10, How does this "30,000 foot" view of the giving of the Law help you better understand a bit better God's reasons for so many commandments? Why did you give it that number?

4- Christ abolished the Law in the sense that He satisfied the purpose—to provide a once and for all payment for humanity's fallenness. But does this mean that God no longer has moral truth for followers of Jesus to follow? Read Galatians chapter 5 and discuss what Paul says.
